## IMAGINE DOWNTOWN

---

April 2019

### Bidding Process

The Downtown Improvement Project Pre-Bid Meeting was well attended with contractors ready to engage and learn more about the project for Phase 1. Complete with a walk down Main Street, contractors, members of the City and a team from Horrocks Engineers, worked collaboratively to dig deep on resolving issues and asking further questions.

The bidding process closed on March 28th at 2 PM. No bids were received, but further action will take place in the coming weeks. The next steps in securing a contract will be to discuss Phase 1 with contractors, both local and out-of-town. Navigating the bidding process in this manner allows the City to ensure this complex project will be completed expeditiously and with careful consideration of businesses impacted.

The Downtown Improvement Project is well on its way to becoming a reality, and we want to thank you all for the many ways you've participated and followed along with the progress of this plan. It is time to unveil the latest and greatest renderings, depicting the possibilities of this project.

## Current Conditions of North Main Street

## New & Improved Rendering of North Main Street

This rendering shows the vision for the Downtown Improvement Project along North Main Street. Imagine the possibilities. Will you stroll down Main with your little one after picking them up from tumbling class, enjoy a slice at some outdoor seating before the sun sets or take part in a mid-day bicycle ride and picnic in the park?

North Main Street will be the first street to see construction for the Downtown Improvement Project beginning this year. The projected timeline sets Phase 1 to begin late spring. Timelines will be updated after negotiations with contractors are finalized.

## Comprehensive Plan Survey

The City of Mountain Home Comprehensive Plan Survey closes on April 5, 2019. If you haven't had the opportunity to take it, there's still time! This survey is instrumental in helping the City of Mountain Home understand what YOU believe our community needs and help prioritize efforts. Click the link below to take the survey!
