

# Mountain Home

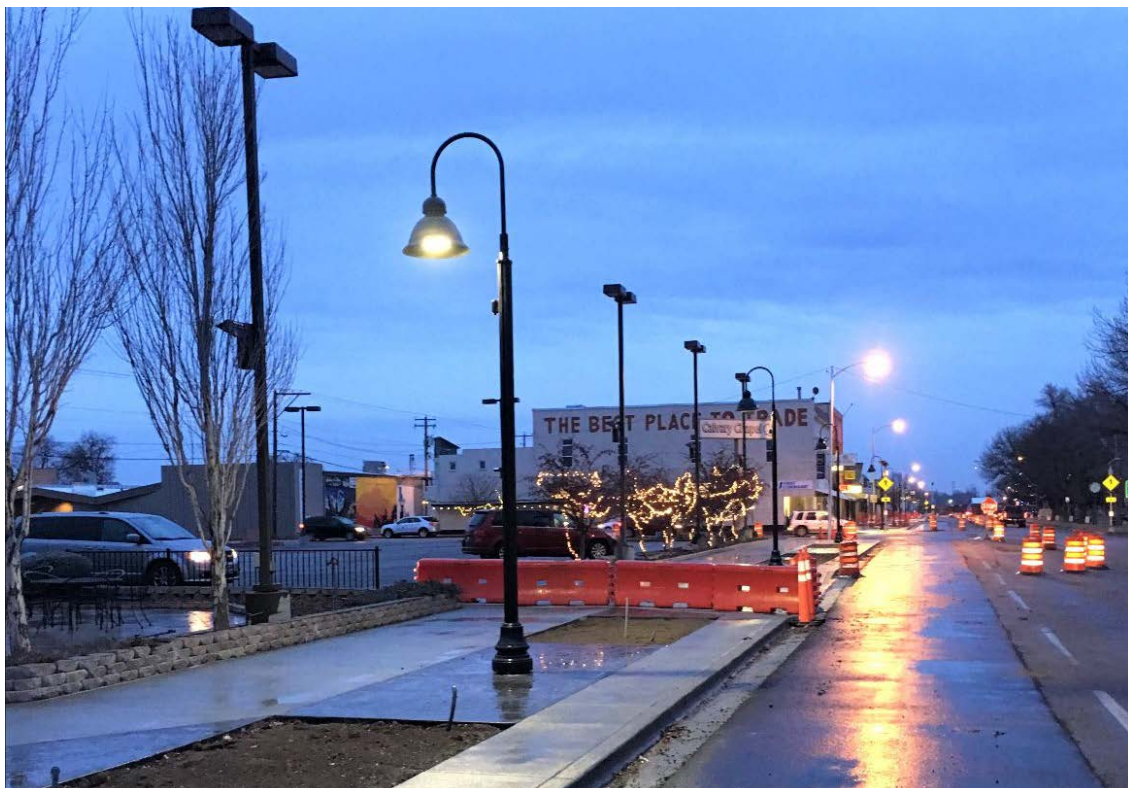

## IMAGINE DOWNTOWN

### December 2019

Our Final Weekly Newsletter for this phase of construction will be a short and sweet one. Hopefully, you've enjoyed the updates and will continue to stay plugged in for Phases II and III come spring.

Light poles have been installed after being received sooner than expected. Facing the building fronts, these charming light poles add character to the pedestrian walkways while simultaneously lighting the parking strip. The remaining concrete from the prior light pole removal will be poured the week of December 16th, wrapping up the concrete work to be done along Main Street.

East 2nd North Street will temporarily be closed for the day of Wednesday, December 18th to finish the storm drain work. Once that work has been completed, traffic control can be removed, and business side parking restored.

PHASE II - DOWNTOWN REVITALIZATION

---

JANUARY 28 | CALVARY CHAPEL | 6-7 PM

---

## Public Meeting

Save the Date!! Tuesday, January 28th from 6-7 pm your attendance is encouraged for this public meeting regarding the process of Phase II and introductions to the Guho team. This meeting will not be an open house setting and will instead have a set presentation with Q&A afterwards.
